- Proper department on products certification;
- Sea lines VIP-rates

PACKAGE OF SERVICES OF GNS GROUP OF COMPANIES INCLUDE:

- Sea freight
- Customs clearance
- Forwarding in port
- Motor, railroad, air delivery of goods
- Insurance
- Certification
- Warehouse storage
- Trading.

GNS group of companies arranges its business based on three values – responsibility, efficiency, relation.

Let us take care of your cargo and you'll feel our thorough approach to the business we do, promptness of any task solution, and relations with our clients based on good faith!

Sea carriage is the safest and at the same time the most cost-efficient means of transport. **GNS group** of companies has been rendering sea transportation services to its clients for over ten years already.

We arrange sea transportation of:

- Shipload lots of bulk cargoes;
- Oversized, piece and project cargoes;
- RO-RO type cargoes (hauling trucks and trailers, cars and other Ro-Ro machinery);
- Containerized cargoes.

OUR SERVICES INCLUDE BUT ARE NOT LIMITED TO:

- Delivery of empty containers to the shipper's warehouse;
- Arrangement of quality control (survey) of goods;
- Choosing the optimum route;
- Customs formalities, both in the port of departure and destination;
- Sea freight from any port of the world to any other port;
- Port forwarding and transit clearance;
- Certification;
- Warehousing and distribution;
- "Door" delivery to consignee's warehouse by any convenient transport means.

Sea carriage is the main and primary type of services which are rendered by GNS group of companies to its clients. Apply to us for sea freight! You'll get competitive rates and qualitative service from best sea carriers.

GNS company's wide experience in the arrangement of containerized cargoes transportation and long-term relations with leading sea container lines let us offer some of the best terms in the market for imported and exported goods. It should be noted that almost every type of cargo can be transported in a container: piece, bulk, loose, consolidated, oversized, dangerous and perishable. There are no limits for us in geography: using a wide agents' chain we can render services almost in any port of the world.

GNS group of companies is included into the **Register of customs representatives**. We are ready to assist in customs clearance of goods imported through Novorossiysk customs. We also submit declarations when the goods are cleared at: Rostov customs, Krasnodar customs, South Excise Customs, Energy customs, Moscow e-declaration center.

We execute import, export, re-import, re-export, temporary import and temporary export. In the course of submission of customs declaration to the customs authorities we arrange all relating procedures at cargo clearance stage: perform examination, weighing, pass the procedure of sanitary and quarantine control, etc.

ADVANTAGES OF CUSTOMS CLEARANCE OF CARGO AT THE BORDER FOR THE CONSIGNEE ARE AS FOLLOWS:

- You shouldn't prepare a set of documents for transit which will considerably save your time and money;
- There is no need to keep the cargo at temporary storage warehouse (SVH);
- Cargo delivery will cost less as there is no need to pay for movement under customs regime;
- Cleared cargo can be loaded to any truck;
- Time of cargo delivery will be shortened

To go into details we do the following during customs clearance of cargo:

- Pre-check the documents provided by the client in advance;
- Determine HS Code;
- Calculate the cost of customs duties and fees;
- Establish the necessity of certification and prepare all required approval documents if necessary;
- Issue and submit Goods Declaration to customs authorities;
- Perform all required port operations with cargo (weighing, examination, sanitary and quarantine control, etc.);
- Submit the documents to the customs in electronic or hard copy;
- Submit additional documents to the customs upon request;
- Perform additional operations after customs declaration issuing.

CUSTOMS TRANSIT CLEARANCE IN NOVOROSSIYSK IS A SERVICE WHICH GNS GROUP OF COMPANY OFFERS TO THE FOREIGN TRADE ACTIVITY PARTICIPANTS FROM THE DATE OF ITS FOUNDATION

We clear the customs transit either as a licensed customs carrier or under security of customs duties payment at customs transit (certificate of guarantee with depositing the funds to customs account or third parties' guarantee).

The advantage of customs transit for the consignee is that this regime makes it possible to carry imported goods across the territory of the Russian Federation without customs duties paying. Customs transit makes it possible not to pay some taxes, apply economic embargoes and restrictions set forth by the Russian legislation. There is no need to present licenses. An important advantage for the cargo consignee is choosing the place of cargo customs clearance by itself.

GNS group of companies clears and arranges goods delivery under customs regime for the period of over 10 years already. The transportation geography – Russian Federation, Ukraine, Kazakhstan, Armenia, Abkhazia, Georgia, Belarus.

Proper subdivision of customs applicants in NUTEP port in close proximity to customs post lets us collect and prepare set of documents required for customs transit clearance quickly, in time, and in accordance with the requirements of laws.

GNS group of companies being the customs carrier will make every effort to deliver the cargo to our clients in due time!

GNS group of companies arranges motor transportation of containerized goods.

We have

- A Certificate of Permit to Perform International Commercial Transportation
- A License for Ethyl Alcohol and Cognac Distillate Transportation.

Proper motor park makes it possible to keep competitive prices in the trucks transportation market. All our trucks are regularly maintained. The trucks are equipped by GLONASS system. All drivers are documented as required by Russian Federation laws. And this advantage lets us instantly respond to orders of any complexity and during any season.

Specific directions:

- Novorossiysk - Kazakhstan
- Novorossiysk - Belarus
- Novorossiysk - Armenia
- Novorossiysk - Abkhazia
- Novorossiysk - Crimea
- Novorossiysk - South Ukraine and Eastern Ukraine
- Novorossiysk - Georgia

IF YOU APPLY TO OUR COMPANY WE GUARANTEE:

- Cargo delivery under customs transit regime across the territory of the Russian Federation;
- Transportation of any cargo including dangerous, consolidated, oversized, heavy load;
- Elaboration of individual routes, shortening your time and financial expenditures;
- Issuing of all required accompanying documents;
- Individual approach to each client ordering transportation of oversized cargo by road;
- Possibility of use of our consolidation warehouses according to your demands;
- Safe cargo transportation by road, which is guaranteed by many years of cooperation with the best motor carriers of Russia and other countries;
- Door-to-door delivery with maximum cost saving;
- Transportation monitoring which is provided by our traffic control department to make you sure that your goods are transported without any accidents;
- You can also order cargo insurance if required.

Our advantage is availability of our operations office in port in close proximity to customs authorities, port services and terminals which let us solve any problems arising in the course of work quickly and efficiently.

GNS GROUP OF COMPANIES IS AN AUTHORIZED REPRESENTATIVE OF ITS CLIENT IN THE PORT'S TERRITORY, WHICH PERFORMS THE FOLLOWING FUNCTIONS:

- Arranges and participates in customs operations performed with the goods: inspection, screening, weighing;
- Controls the procedure of scanning the container with cargo (inspection monitoring complex);
- Timely informs about the status of cargo passing any procedure and about any deviations arising. Inquires data required for prompt solution of current problems;
- Takes and sends photos during inspection procedure, controls cargo safety and, if required, possible and specifically instructed – tally packages and separate items;
- Examines a container after its loading onto the transport means;
- Offers and arranges all possible measures on cargo packing recovery, cargo securing in the container during stuffing after preliminary and customs inspections;
- Arranges and controls cargo transfer from universal sea containers to other transport means: rail, motor.

Oversized cargoes are carried by motorways by special vehicles or by sea, which requires maximum coordination for numerous tasks solution:

- Preparation of required set of documents (including permits);
- Exact elaboration of the route excluding problem areas;
- Special machinery selection required for transportation of non-standards oversized heavy load cargoes;
- Loading operations considering all peculiarities of cargo and its transportation;
- Cargo marking and sealing meeting the requirements of its safety;
- Cargo insurance (at the client's option).

To handle cargoes in Novorossiysk port GNS group of companies has direct Contracts with: PJSC "NCSP", NUTEP LLC. Working with us you'll always be informed at which terminal your cargo is located and handled.

Cargoes which sizes exceed the vehicle dimensions are considered to be oversized. Their weight usually exceeds 30 tons, they can be packed or not.

The following goods are traditionally referred to oversized cargoes: architectural compositions, metal and reinforced concrete structures, track and wheel vehicles, timber, machine units, etc.

We work only with reliable professional contractors to transport non-standard, oversized and heavy load cargoes of our clients.

GNS group of companies is a **licensed carrier of ethyl alcohol and cognac distillate**

GNS group of companies is a licensed carrier of ethyl alcohol and cognac distillate. Starting from the year 2013 "GNS" company is a participant of USAIS system which regulate turnover of ethyl alcohol of wholesalers and retailers in the territory of the Russian Federation.

The majority of ethyl alcohol and cognac distillate deliveries are made from Armenia. The rest deliveries are from Spain and France. GNS group of companies successfully delivers cognac distillate from Armenia under international transit regime through the territory of Georgia. We also make deliveries from Europe. Transportation geography: Russian Federation, Customs Union, Spain, France, Armenia, Georgia. We'll prepare the package of documents required for transportation of such type of cargo.

To deliver ethyl alcohol and cognac distillate the carrier and the buyer shall conclude
